IN THE MATTER OF THE LICENSE OF

Administrative Action

FREDERICK LEWIS, M.D.
A/K/A ABRAHAM MOHAMMED
License No: MA 44331

TO PRACTICE MEDICINE AND SURGERY
IN THE STATE OF NEW JERSEY

FINAL ORDER
OF DISCIPLINE

This matter was opened to the New Jersey State Board of Medical Examiners upon receipt of information which the Board has reviewed and on which the following findings of fact and conclusions of law are made;

FINDINGS OF FACT

1. Respondent, Frederick D. Lewis, M.D., a/k/a/ Abraham Mohammed, License No. 44331, is a physician licensed in the State

of New Jersey. As a consequence of respondent's failure to submit his biennial renewal in 1985, respondent's license to practice medicine and surgery in the State of New Jersey was automatically suspended pursuant to N.J.S.A. 45:9-6.1, which allows for reinstatement of certain fees.

was inappropriate because it would be useful in the treatment of profuse bleeding or chest pain. The Board concluded that respondent's treatment of said four (4) patients was inappropriate and resulted in a breach of the appropriate standard of medical care in the District of Columbia. Further, the Board found that respondent's treatment of the patients failed to conform to the prevailing standard of acceptable medical treatment and that such treatment amounted to the careless disregard for the health, safety and welfare of those patients for which the Board may take disciplinary action.

5. Respondent's license to practice medicine in the District of Columbia was suspended and respondent was ordered to receive psychiatric evaluation to determine his psychiatric fitness to practice medicine. Respondent was also ordered to take the Special Purpose Examination for Physicians (SPEX) to determine the status of his current medical knowledge, and to take a continuing education course for any area of the SPEX for which he demonstrated deficiency, as determined by the Board. Respondent was further ordered to pay a penalty in the amount of \$1500.

.CONCLUSIONS OF LAW

1. The above District of Columbia action provides grounds to take disciplinary action against respondent's license to practice medicine and surgery in New Jersey pursuant to N.J.S.A.

(g) in that respondent has had his authority to engage in the practice of medicine suspended in another state.

Based on the foregoing findings and conclusions, a Provisional Order of Discipline suspending respondent's license to practice medicine and surgery in the State of New Jersey was entered on August 1, 2002 and a copy was delivered to respondent at the last known address on file with the Board. The Provisional Order was subject to finalization by the Board at 5:00 p.m. on the 30th business day following the entry unless respondent requested a modification or dismissal of the stated Findings of Fact or Conclusions of Law by submitting a written request for modification or dismissal setting forth in writing any and all reasons why said findings and conclusions should be modified or dismissed and submitting any and all documents or other written evidence supporting respondent's request for consideration and reasons therefor.

Although the record reflects that the Provisional Order was served upon respondent, no response has been received to date. Accordingly, the Board considered the matter, determined that further proceedings were not necessary and the Provisional Order should be made final.

ACCORDINGLY, IT IS on this 30th day of Dec, 2002,

ORDERED that:

1. Respondent's license to practice medicine and surgery in the State of New Jersey is hereby suspended until such time as respondent can demonstrate that his license in the District of Columbia has been fully restored.

2. Prior to resuming active practice in the State of New Jersey, respondent shall appear before a committee of the Board to demonstrate his fitness to practice in this State. Any medical practice prior to said appearance shall constitute grounds for automatic suspension of his New Jersey license. In addition, the Board reserves the right to place restrictions on respondent's practice should his license be reinstated.

HAS BEEN ACCEPTED**

APPROVED BY THE BOARD ON MAY 10, 2000

All licensees who are the **subject** of a disciplinary **order** of the Board **are** required to **provide** the information required **on** the Addendum to these Directives. The information provided will be maintained separately **and** will not be part of the public document filed with the **Board**. **Failure** to provide the information **required** may result in further disciplinary action **for failing** to cooperate with **the Board**, as required by N.J.A.C. 13:45C-1 et seq. Paragraphs 1 through 4 below shall apply when a license is suspended or revoked or permanently surrendered, with **or** without prejudice. Paragraph 5 applies to **licensees who are the subject of an order** which, while permitting continued practice, contains a probation or monitoring requirement.

1. Document Return and Agency Notification

The licensee shall promptly forward to the Board office at **Post Office Box 183, 140 East Front Street, 2nd floor, Trenton, New Jersey 08625-0183**, the original license, current biennial registration and, if applicable, the original CDS registration. **In** addition, if the licensee holds a Drug Enforcement Agency (**DEA**) registration, he or she shall promptly **advise** the **DEA** of the **licensure action**. (With respect to suspensions of a finite term, at the conclusion of the **term**, the licensee may contact the **Board** office **for** the return of the documents previously surrendered to the Board. **In** addition, at the conclusion of **the term**, the licensee **should** contact the DEA to **advise** of the **resumption of practice and** to ascertain the impact of that change **upon** his/her **DEA registration**.)

2. Practice Cessation

The licensee shall cease **and** desist from engaging in the practice of medicine in this State. This prohibition not only bars a licensee from rendering professional **services**, but also from providing an opinion as to professional practice or its application, or representing him/herself as being eligible to practice. (Although **the licensee** need not affirmatively advise patients or **others** of the revocation, suspension or surrender, the licensee **must truthfully** disclose his/her licensure status in response to inquiry.) The disciplined licensee is **also** prohibited from occupying, sharing or using office space in which another **licensee** provides health care **services**. The disciplined licensee may contract for, accept payment **from another licensee for** or rent at fair market value office premises **and/or** equipment. **In no case** may the disciplined licensee authorize, allow or condone the use of his/her **provider number** by any health **care** practice or any other licensee or health care provider. (**In** situations where the licensee has been suspended for less than one year, the licensee may accept payment from another professional who is using **his/her office** during the period that the licensee is **suspended**, for the **payment** of salaries for office staff employed at the **time** of the Board action.)

A licensee whose license has been revoked, suspended for one (1) year or more or permanently surrendered must remove signs and take affirmative action to stop advertisements by which his/her eligibility to practice is represented. The licensee must also take steps to remove his/her name from professional listings, telephone directories, professional stationery, or billings. If the licensee's name is utilized in a group practice title, it shall be deleted. Prescription pads bearing the licensee's name shall be destroyed. A destruction report form obtained from the Office of Drug Control (973-504-6558) must be filed. If no other licensee is providing services at the location, all medications must be removed and returned to the manufacturer, if possible, destroyed or safeguarded. (In situations where a license has been suspended for less than one year, prescription pads and medications need not be destroyed but must be secured in a locked place for safekeeping.)

3. Practice Income Prohibitions/Divestiture of Equity Interest in Professional Service Corporations and Limited Liability Companies

A licensee shall not charge, receive or share in any fee for professional services rendered by him/herself or others while barred from engaging in the professional practice. The licensee may be compensated for the reasonable value of services lawfully rendered and disbursements incurred on a patient's behalf prior to the effective date of the Board action.

A licensee who is a shareholder in a professional service corporation organized to engage in the professional practice, whose license is revoked, surrendered or suspended for a term of one (1) year or more shall be deemed to be disqualified from the practice within the meaning of the Professional Service Corporation Act. (N.J.S.A. 14A:17-11). A disqualified licensee shall divest him/herself of all financial interest in the professional service corporation pursuant to N.J.S.A. 14A:17-13(c). A licensee who is a member of a limited liability company organized pursuant to N.J.S.A. 42:1-44, shall divest him/herself of all financial interest. Such divestiture shall occur within 90 days following the the entry of the Order rendering the licensee disqualified to participate in the applicable form of ownership. Upon divestiture, a licensee shall forward to the Board a copy of documentation forwarded to the Secretary of State, Commercial Reporting Division, demonstrating that the interest has been terminated. If the licensee is the sole shareholder in a professional service corporation, the corporation must be dissolved within 90 days of the licensee's disqualification.

4. Medical Records

If, as a result of the Board's action, a practice is closed or transferred to another location, the licensee shall ensure that during the three (3) month period following the effective date of the disciplinary order, a message will be delivered to patients calling the former office premises, advising where records may be obtained. The message should inform patients of the names and telephone numbers of the licensee (or his/her attorney) assuming custody of the records. The same information shall also be disseminated by means of a notice to be published at least once per month for three (3) months in a newspaper of

general circulation in the geographic vicinity in which the practice was conducted. At the end of the three month period, the licensee shall file with the Board the name and telephone number of the contact person who will have access to medical records of former patients. Any change in that individual or his/her telephone number shall be promptly reported to the Board. When a patient or his/her representative requests a copy of his/her medical record or asks that record be forwarded to another health care provider, the licensee shall promptly provide the record without charge to the patient.

5. Probation/Monitoring Conditions

With respect to any licensee who is the subject of any Order imposing a probation or monitoring requirement or a stay of an active suspension, in whole or in part, which is conditioned upon compliance with a probation or monitoring requirement, the licensee shall fully cooperate with the Board and its designated representatives, including the Enforcement Bureau of the Division of Consumer Affairs, in ongoing monitoring of the licensee's status and practice. Such monitoring shall be at the expense of the disciplined practitioner.

(a) Monitoring of practice conditions may include, but is not limited to, inspection of the professional premises and equipment, and inspection and copying of patient records (confidentiality of patient identity shall be protected by the Board) to verify compliance with the Board Order and accepted standards of practice.

(b) Monitoring of status conditions for an impaired practitioner may include, but is not limited to, practitioner cooperation in providing releases permitting unrestricted access to records and other information to the extent permitted by law from any treatment facility, other treating practitioner, support group or other individual/facility involved in the education, treatment, monitoring or oversight of the practitioner, or maintained by a rehabilitation program for impaired practitioners. If bodily substance monitoring has been ordered, the practitioner shall fully cooperate by responding to a demand for breath, blood, urine or other sample in a timely manner and providing the designated sample.
